Greetings from Skoder

K M Abir Mahmud
CEO- SKODER

We develop leaders who create opportunities that can transform the world. In Bangladesh, a country rich in potential, we believe technology can significantly improve lives. Our focus is on optimizing performance for businesses and entrepreneurs. Starting from a university dormitory, we have grown into a family of over 24 members, supported by more than 50 loyal customers who trust our quality service. Our vision is to establish 100+ unicorns through Skoder over the next 20 years, positioning Bangladesh as a global tech product hub with a highly skilled workforce.

OUR STORY

OUR BEGINING

Skoder Technologies is the latest frontier of the new era of technology. We have a brief history behind its birth. Skoder Technologies was first launched in 2018 from a technological passion of a young team. Our leaders thought to make a difference to the world with advanced technologies.

OUR JOURNEY

Our journey foster the individual growth of all of our employees, and we are proud to help transform our people into the future leaders of the software industry. We feature a highly experienced team of managers and diverse creative and technical teams who strongly believe in providing the utmost quality to all our clients.

MISSION & VISION

MISSION

We dare to solve the triangle problem of Quality – Cost – Time with the most skilled and empowered resources

VISION

Our mission is to dream of a Digital Bangladesh to be known as the highest growing economy of Technology Solutions with thousands of Unicorns

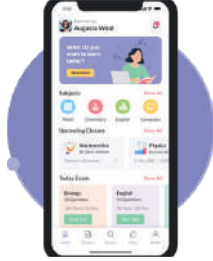

skoder Innovate Creation PRODUCTS & SERVICES

BUILDING INTELLIGENT DIGITAL PLATFORMS FOR THE FUTURE

By combining Artificial Intelligence, enterprise software engineering, and research-driven innovation, we deliver digital platforms that empower institutions, businesses, and governments to operate more efficiently, make informed decisions, and embrace the future of digital transformation.

Campus 365 Personalized Education Technology

- Personalized learning platform
- Student & faculty engagement
- Digital academic services
- Learning analytics & insights

Business Automation Solution

- Workflow automation
- Centralized business operations
- Process & task management
- Real-time reporting

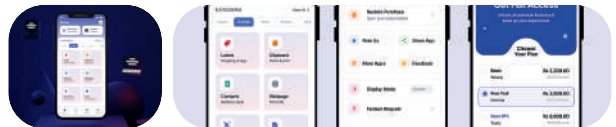

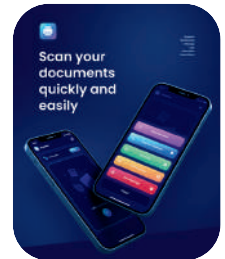

RealEstate Automation Solution

- Real-estate workflow automation
- Customer & property tracking
- Digital property operations
- Centralized management dashboard

Printing Technology IoT Solution

- Smart IoT-enabled printing
- Remote printer management
- Mobile & web integration
- Automated print services

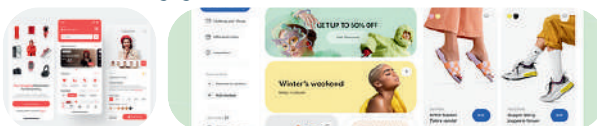

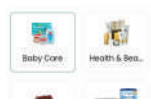

eCommerce and Online Store

- Online storefront
- Product & inventory management
- Order management
- Customer engagement

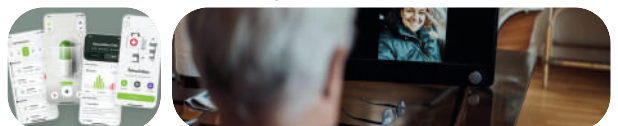

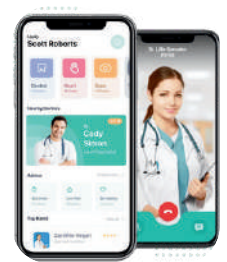

Picked For You
Specialized items for you today

Telemedicine & Hospital Solution

- Online healthcare services
- Telemedicine support
- Digital health management
- Accessible healthcare experience

skoder FOR ENTERPRISE

Innovate Creation

HOW YOUR BUSINESS CAN BE MORE PRODUCTIVE WITH US

BUSINESS INTELLIGENCE

The analytics platform for every business need

ENTERPRISE HEALTH

Complete health solution for all the employees

ENTERPRISE AUTOMATION

Systems needed to make business processes efficient

AUTOMATION SOLUTIONS

A smooth transition in automation of business need

APP DEVELOPMENT

We enable seamless user experience across all modern platforms and devices

WEB DEVELOPMENT

We create magnificent & flawless website from scratch to a full furnished product

E COMMERCE SERVICES

We provide support to ecommerce clients with diverse challenges and business goals

DIGITAL MARKETING

We deliver the cutting edge and result oriented digital marketing service

skoder FOR STARTUPS

Innovate Creation

HOW MORE SUSTAINABLE AND SCALABLE STARTUPS GROW WITH US

TECHNOLOGY SOLUTION

We provide years of experience in solutions

RESEARCH & DEVELOPMENT

Our team is consist of highly qualified research expert

TECH INVESTMENT

We co-ordinate with investors to make it easy

GROWTH PARTNER

We promote idea to grow faster & better

DIGITAL DISTRIBUTION

We know when, where and how to distribute to get better results

OUTSOURCING PARTNER

We outsource solutions according to client requirement

TRANSFORMING COMPLEX OPERATIONS INTO STREAMLINED DIGITAL ECOSYSTEMS

Skoder Technologies designs and delivers AI-powered enterprise software, digital transformation platforms, and intelligent automation solutions for governments, universities, financial institutions, and rapidly growing enterprises.

Solutions & Core Expertise

We engineer custom-built architectures tailored to the exact workflows, security mandates, and scaling requirements of complex enterprises

Next-Generation Enterprise AI

We deploy advanced Artificial Intelligence, Machine Learning, and Agentic Solutions into enterprise environments. Utilizing Retrieval-Augmented Generation (RAG) and secure cloud environments, we build autonomous systems that automate complex workflows and real-time, data-driven intelligence.

Unified ERP & Institutional Ecosystems

End-to-end integration of Human Resource Management (HRM), Asset Management, and core operational software into a single, centralized platform, eliminating data silos for workforces and campuses.

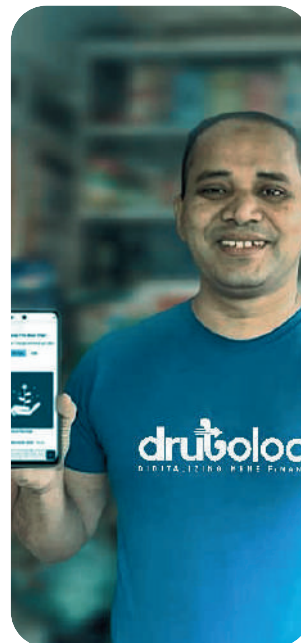

Secure Financial & FinTech Infrastructure

High-capacity architecture built for rapid transaction processing, secure payment gateways, loan management, and cross-border financial routing.

Seamless Communications Connectivity

Deep integration of modern Telecom APIs to facilitate automated alerts, secure multi-factor authentication, and real-time communication across disparate enterprise platforms.

Partnership & Portfolio

Skoder partners with entrepreneurs from the earliest stages of innovation, transforming concepts into market-ready digital products through strategic planning, AI-driven development, and business-focused engineering.

Startup Growth Ecosystem

Building technology that helps startups launch faster, scale smarter, and compete globally. Skoder provides the technical expertise and entrepreneurial guidance to accelerate your startup journey.

Startup Discovery & Validation

We help founders validate business ideas through market research, customer discovery, business model analysis, and technology feasibility assessments before investing in development.

MVP & Product Development

Rapid development of Minimum Viable Products (MVPs), web platforms, mobile applications, SaaS solutions, AI-powered products, and enterprise-grade software designed for fast market entry.

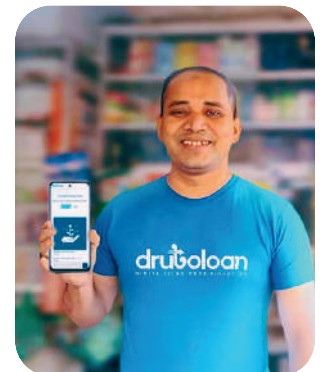

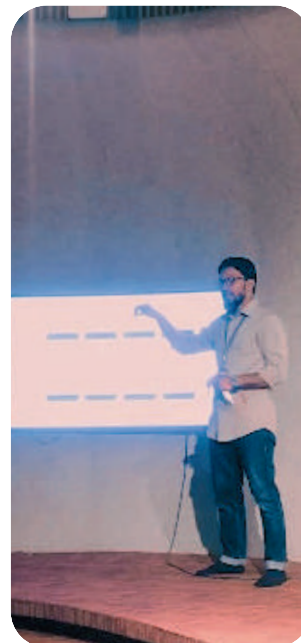

AI-Powered Innovation

Integrate the latest Artificial Intelligence technologies, including Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), intelligent automation, recommendation engines, and predictive analytics into your products.

Product Scaling & Technology Leadership

From prototype to production, we provide scalable cloud architecture, DevOps, API integrations, security, performance optimization, and ongoing technical leadership to support business growth.

Partnership Ecosystem

REIMAGINING EDUCATION THROUGH DIGITAL TRANSFORMATION & ARTIFICIAL INTELLIGENCE

By combining automation solutions, Artificial Intelligence and educational research, we empower institutions to deliver smarter administration, personalized learning experiences for the next generation of learners.

Education Solutions & Core Expertise

At Skoder Technologies, we believe education is the foundation of innovation and national development. Delivering end-to-end digital transformation solutions for modern education ecosystems.

Smart Campus & Digital Transformation

We design and implement comprehensive digital campuses by integrating admissions, academics, examinations and administrative operations into a single intelligent platform that improves efficiency, transparency, and institutional performance.

AI-Powered Learning & Academic Innovation

Our AI solutions empower educators and students through intelligent tutoring systems, AI teaching assistants, automated assessments, and career guidance powered by Large Language Models (LLMs) and intelligent recommendation systems.

Academic Management & Excellence

We develop comprehensive academic management solutions that support Outcome-Based Education (OBE), curriculum management, accreditation processes faculty management, and institutional reporting to improve educational outcomes.

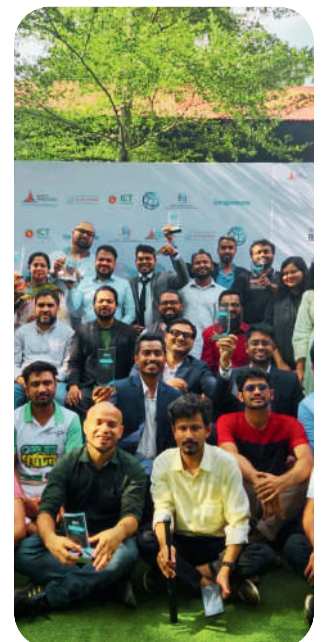

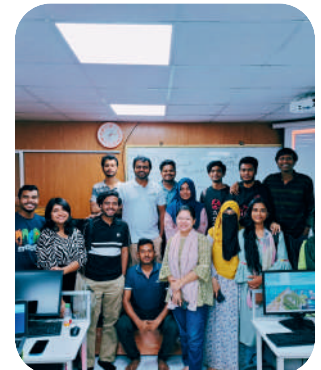

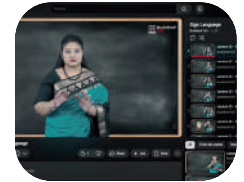

Research, Innovation & Future Skills

We collaborate with universities and research organizations to develop AI-driven research platforms and industry-academia collaboration initiatives that foster innovation, entrepreneurship, and future-ready talent.

Education Ecosystem

We support educational institutions throughout their digital transformation journey.

**Digital Strategy → Campus Automation → AI Learning
→ Research & Innovation → Student Success →
Institutional Excellence**

Our research activities focus on Artificial Intelligence, Machine Learning, Computer Vision, Natural Language Processing, Healthcare AI, Educational Technology, and Intelligent Systems, with a strong emphasis on applied research and industry impact.

Research & Innovation Areas

At Skoder Technologies, research is at the heart of our innovation. We bring together software engineers, AI researchers, academics, and technology specialists to explore emerging technologies.

Artificial Intelligence & Intelligent Systems

- Large Language Models (LLMs)
- Generative AI and Agentic AI
- Retrieval-Augmented Generation (RAG)
- AI Governance & Responsible AI
- Intelligent Automation

Educational Technology & Learning Analytics

- Intelligent Tutoring Systems
- Personalized Learning
- Learner Engagement Detection
- AI Teaching Assistants and Learning Analytics
- Adaptive Learning Systems

Computer Vision & Machine Learning

- Image Processing
- Object Detection & Recognition
- Facial Emotion Analysis & Medical Image Analysis
- Predictive Machine Learning
- Human Activity Recognition

Healthcare AI & Digital Health

- Disease Risk Prediction
- Clinical Decision Support
- Medical Image Intelligence
- Healthcare Analytics & AI-powered Diagnostics
- Remote Healthcare Solutions
