Experience

2022 - Running Startup Rajshahi Vice President

Startup Rajshahi is a community-based initiative in Rajshahi, Bangladesh, aimed at supporting, promoting, and connecting startups and entrepreneurs in the region. It serves as a hub where aspiring founders, innovators, and small business owners can learn, share ideas, and access opportunities to grow their ventures.

2021 - Running LabAR Chief Technology Officer

LabAR is a champion team from the **Student to Startup: Chapter-1** program conducted by the **ICT Division**, Bangladesh. They work in AR, VR, game development, and 3D modeling, creating custom AR filters for social media and exploring VR applications beyond gaming in healthcare, education, and manufacturing to enhance experiences and engage audiences.

2024 - Running PrintNow Chief Executive Officer

PrintNow! is a smart printing solution that makes self-service printing easy and efficient. It combines specialized printing machines with a cloud-based system that lets users scan a QR code, upload documents, and print without installing apps or logging in. It includes tools to manage multiple printers, track print counts, and run reports, helping print shop owners run operations with lower cost and higher throughput. The platform also supports dashboards, cashless payments, and franchise opportunities for expansion.

2020 - Running Innovation Design and Entrepreneurship Academy (iDEA) Program Coordinator

Innovation Design and Entrepreneurship Academy (iDEA) Project under the ICT Division of the Government of Bangladesh. It's a government initiative to support innovation and entrepreneurship by helping startups and young entrepreneurs with grants, training, mentorship, coworking space, networking events, and other resources. The site lets users apply for startup grants, SME support, and free co-working space, and shows funded startups and success stories.
